Partnership Buy-In Program

If you have expansion plans that include a new partner, let us help with buy-in financing!

Each partnership buy-in structure should be as unique as the firm, and our team of professional business bankers will work with you to make that happen.

Heritage Bank can finance up to 100 percent of a new partner buy-in without requiring any down payment or collateral from the new partner. We can also refinance any current partners in your business who might still be making monthly or quarterly payments.

This provides your firm a healthy infusion of capital in return for taking on the minor risk of the loan guarantee.

Learn more by calling 1-800-344-7048 or visit us at:
